Agenda Item: Discussion of proposed source of funds - Watson-Cordone agreement - Pine Shadows street and drainage

Initiating Department/Presenter: Finance

Presenter:

Aron Kulhavy, City Manager
Steve Ritter, Finance Director

Discussion:

Previous Council Action: Discussion of proposed source of funds - Watson-Cordone agreement - Pine Shadows street and drainage

Financial Implications:

Associated Information:

CITY COUNCIL FINANCE COMMITTEE AGENDA

1/16/2024

Agenda Item Number: 2.c.

Agenda Item: Discussion concerning revising the raw water contract with TRA increasing the Contract Quantity and reducing the Reservation Quantity

Initiating Department/Presenter: Finance

Presenter:

Aron Kulhavy, City Manager

Brent Sherrod, Public Works Director

Steve Ritter, Finance Director

Discussion:

Previous Council Action: Discussion concerning revising the raw water contract with TRA increasing the Contract Quantity and reducing the Reservation Quantity

Financial Implications:

Associated Information:

1. TRA Summary

The City entered into a new contract for raw water with the Trinity River Authority (TRA) effective January 1, 2021. The new contract is effective until November 30, 2070 (50 years). The old contract with TRA began August 24, 1976 and ended December 31, 2020.

The new contract provided for a "Contract Quantity" of water of 11,210 acre-feet per year (roughly 3.65B gallons for a year or 10M gallons a day). The contract also provided for a "Reservation Quantity" of 17,936 acre-feet of water. The "Contract Quantity" is the amount of water the City is committed to pay for at TRA's raw water rate (currently \$95 per acre-foot) whether the City uses the full amount or not. The "Reservation Quantity" is the amount set aside for the City in anticipation of future additional use and the City pays 30% of the \$95 Contract Quantity rate (\$28.50 per acre-foot) for the reserve water.

The contract allows the City to take/use more than the 11,210 "Contract Quantity" amount; however, the contract provides that TRA will assess a 25% surcharge on the cost of the "excess" amount over 11,210 acre-feet. Example: if the City uses 12,210 acre-feet in a year we are charged $1,000 \times \$95 = \$95,000$ which is the regular charge for raw water + $25\% \times \$95,000 = \$23,750$ the surcharge.

In the last 2 years the City has exceeded the "Contract Quantity" by 1,075 acre-feet in 2022 and 2,115 acre-feet in 2023. The contract allows for the City to increase the "Contract Quantity" and decrease the "Reservation Quantity" "at any time and from time to time". Staff would like to increase the "Contract Quantity" by 1,120 acre-feet (10%). While 2023 exceeded this amount the summer of 2023 endured a severe drought and it is not likely for such to occur again soon.

While going over creates some surcharge if we go under the "Contract Quantity" amount we "eat" the cost of the amount we are under by.

Example over - 1,000 over we pay a 25% surcharge on \$95,000 which is \$23,750; we have received revenue

Example under – 1,000 under we have paid \$95,000 for water not used & no revenue received
